OUR ONE-PAGE GUIDE TO HELPFUL WEBSITES

Practicing Agriculture that Protects Sources of Drinking Water

GENERAL

Conservation Technology Information Center

Profitable agricultural solutions that protect the environment... www.conservationinformation.org

EPA on Ag

Ideas, programs and practices from the Environmental Protection Agency's agricultural web site.
www.epa.gov/agriculture

EPA on Source Water Protection

Agency's website on protecting sources of drinking water... <http://cfpub.epa.gov/safewater/sourcewater>

Extension.org

An interactive learning environment focused on agriculture from America's land-grant universities.
<http://www.extension.org/>

Natural Resources Conservation Service

USDA's effort to help land owners conserve their soil, water, and other natural resources.
<http://www.nrcs.usda.gov/>

Groundwater Basics

Facts, terms, explanations and suggestions from The Groundwater Foundation.
<http://www.groundwater.org/gi/docs/GWBASICS2.pdf>

Source Water Collaborative

Suggestions from 21 organizations to protect the lakes, rivers and aquifers we tap for drinking water.
http://www.protectdrinkingwater.org/index.php?option=com_content&task=view&id=64&Itemid=42

FERTILIZER USE, CONSERVATION BUFFERS & CONSERVATION TILLAGE

Outreach tools and success stories

Website for EPA's non-point source program... <http://www.epa.gov/nps>

Fact Sheet

EPA flyer on agricultural runoff... http://www.epa.gov/owow/nps/Ag_Runoff_Fact_Sheet.pdf

GOOD LIVESTOCK MANAGEMENT

Extension.org

Recommendations around animal manure management.
<http://www.extension.org/animal+manure+management>

INTEGRATED PEST MANAGEMENT

The IPM Institute of North America, Inc.

Information from a non-profit created to promote integrated pest management.

<http://www.ipminstitute.org/>

INTELLIGENT IRRIGATION

Pacific Institute Report

How California agriculture can thrive while conserving water.

http://www.pacinst.org/press_center/press_releases/more_with_less_delta.html

SMART SEPTIC TANKS

EPA Guide

Septic tank solutions for homeowners.

http://www.epa.gov/owm/septic/pubs/homeowner_guide_long.pdf

TEACHING RESOURCES

1. **U.S. Geologic Survey**
Water science for schools... <http://ga.water.usgs.gov/edu>
2. **Online Teaching Resources**
From the National FFA Organization, the Council for Agricultural Education and other partners.
<http://www.agedlearning.org/>
3. **Water Drop Patch Project**
Helps Girl Scouts learn about water quality... <http://www.epa.gov/adopt/patch/>
4. **National Association of Conservation Districts**
Water education resources... <http://www.nacdnet.org/education/resources/water/>
5. **NACD Stewardship & Education**
Would you like to receive weekly updates about conservation from NACD?
<http://nacdnet.org/news/publications/enotes/> And subscribe to NACD e-notes
6. **Field to Faucet**
<http://working.m4change.com/f2f/pdfdownload.pdf> (PDF file)
<http://working.m4change.com/f2f/pdfinsertdownload.pdf> (Insert Download PDF)
